

AEP Marine Parts

Radar Product Guide 4th edition.

a new name
a new generation of magnetrons
a new edition

AEP Marine Parts is the new name for the radar parts sales division of Alphatron Electronic Parts BV

The new 4th edition product guide contains the latest radar models, a complete overview of the EEV microwave products for radar and the new generation GEN4 magnetrons.

For you, our customer, a magnetron is a spare, for us it is a component and for both of us a key product. To process your orders for these key products even better, we have given the division a new name with direct sales lines.

Nothing else changes, with our warehouses and offices in Rotterdam, Atlanta, Singapore, Auckland, Brisbane, Manchester, Copenhagen and Shanghai we'll offer you the same overnight delivery service for emergency orders.

Key, for both of us, are the new GEN4 magnetrons, available in 4, 6 and 10kW, designed to meet new IMO requirements on spurious frequencies. GEN4 offers the latest magnetron technology, not only to service new radars but also to service older equipment. Finally one model to service them all.

The new GEN4 magnetron, because of its compact design, can be installed in almost any radar using the same kW output. If the footprint is different, just use the simple adapter plate.

We have made the radar guide with great care but, because of the large variety of different radar models, it is impossible to check them all ourselves. We welcome any additional information about missing front-end types or limiters. We have done our utmost to make the new guide as accurate as possible. However, if you do find an error, please accept our apologies and notify us at sales@aepint.nl

Magnetrons

GEN2 Magnetrons

Type	Power	Frequency
M1325L	25 kW	9380-9440 Mhz
M5068	25 kW	9620-9680 Mhz
M5089T	25 kW	9415-9460 Mhz
M5187	25 kW	9380-9440 Mhz
M5187F	25 kW	9380-9440 Mhz
M5199	30 kW	9415-9460 Mhz
